Professional Summary

Commercially driven professional with 3+ years of experience spanning client engagement, stakeholder management, and data-led business development across leading organisations including Sky Group and DHL. Proven ability to communicate complex insights compellingly to senior stakeholders, identify commercial opportunities, and build trusted relationships across cross-functional teams. Known for a high work ethic, strong written and verbal communication, and a relentless focus on quality and results. Eager to channel analytical expertise and commercial acumen into a high-performance B2B sales environment.

Core Competencies

Sales & Business Development	Client Relationship Management	Stakeholder Engagement
Commercial Opportunity Identification	Pipeline & Prospect Coordination	Requirements Gathering
Pitch Development & Presentation	Cross-functional Collaboration	Persuasive Communication
Data-Driven Storytelling	CRM & Reporting Tools	B2B Commercial Awareness

Professional Experience

Data Operations & Commercial Analyst

Jun 2025 – Present

DHL, Derby, UK

- Built and presented performance dashboards to senior stakeholders across 7+ operational metrics, driving data-informed decisions at leadership level.
- Coordinated directly with stakeholders to gather requirements, align on commercial priorities and deliver recurring reporting outputs that influenced operational targets.
- Reduced manual reporting overhead by 15% through process automation, freeing team capacity for higher-value client-facing activities.
- Identified trends, anomalies and performance gaps, translating findings into clear, actionable recommendations for senior audiences.
- Maintained data integrity across 1,500+ monthly records — ensuring all stakeholder-facing outputs met the highest accuracy standards.

Commercial & Client Insights Analyst

Jul 2024 – Jun 2025

Sky Group, UK

- Partnered with commercial and product teams to identify revenue growth opportunities, conversion gaps and audience segments with the highest potential value.
- Produced weekly client-facing performance summaries covering sales activity, competitor positioning and commercial benchmarks — presented directly to stakeholders.
- Drove a 15% improvement in customer satisfaction by translating behavioural data into targeted commercial recommendations adopted across client-facing teams.
- Built compelling narratives from complex datasets to inspire confidence and support strategic decisions at a senior level.
- Collaborated across content, sales and delivery teams to ensure consistent, high-quality output aligned with business objectives.

Business Intelligence & Reporting Analyst (Intern)

Nov 2021 – Oct 2022

Tata Consultancy Services, Remote

- Delivered weekly and monthly KPI reports across 8+ business performance indicators to senior stakeholders, supporting commercial review cycles.

- Developed reusable performance dashboards adopted across teams, cutting reporting effort by 20% and improving consistency.
- Communicated analytical findings clearly and concisely, ensuring non-technical stakeholders could act on insights with confidence.
- Managed end-to-end delivery of data projects — from requirements gathering to final presentation — demonstrating ownership and attention to quality.

Key Projects

Campaign Performance & Audience Reporting Dashboard

- Designed a client-ready reporting concept tracking campaign KPIs (impressions, CTR, CPA, conversion rate) with visual summaries that pinpointed performance drivers and opportunities.
- Translated technical data outputs into clear, compelling narratives suitable for executive and non-technical audiences.

Customer Segmentation & Conversion Opportunity Analysis

- Analysed 20,000+ customer records to identify high-value behavioural segments and retention opportunities, presented as strategic recommendations to stakeholders.

BA Economics & Public Administration — BAOU, India

Certifications

Google Data Analytics Professional Certificate — Meta Marketing Analytics Professional Certificate —
Google Analytics 4 Certification — Advanced SQL Certification

What I Bring to a Sales Role

I combine commercial awareness with analytical rigour — a rare combination that enables me to understand a client's business deeply, craft data-backed pitches, and communicate value persuasively. Having worked alongside sales, product and delivery teams at Sky and DHL, I understand what it takes to convert stakeholder conversations into tangible outcomes. I bring high energy, a growth mindset and a genuine passion for building trusted relationships.
